Virginia Street, Reno, Nev. Janit

A vivacious woman's face can frequently speak in more eloquent language than any known to the tongue of man. It can invite or repel, sigh or smile, be meek or haughty, tear a passion to tatters or humbly seek forgiveness. It can also tell the story of health. A woman who suffers from weakness and disease in a womanly way sits in sorrow and dejection while her healthy sisters enjoy themselves. She may be naturally beautiful, naturally attractive, naturally interesting and animated and witty, but the demon of ill-health is gnawing at the very vitals of her womanly nature, and she soon becomes a withered and wall flower in comparison with her brighter and more healthy sisters. Dr. Pierce's Favorite Prescription is a wonderful medicine for women who suffer in this way. It acts directly on the delicate and important organs concerned in womanly health. It tones and builds up the shattered nerves. It restores the glow of health to the pallid cheek. It gives springiness and trip to the carriage. It makes the eyes sparkle with returning vivacity. It imparts animation to the sigh and gesture. The fact that long lay listless and idle in the lap of an invalid again speaks the eloquent language of a healthy, happy woman. Thousands of women have testified to the marvelous merits of this wonderful medicine.

"For several years I suffered with prolapsus of the uterus," writes Miss A. Lee Schuster of Box 15, Rodney, Jefferson Co., Miss. "Our family physician treated me for kidney trouble, and everything else but the right thing. I grew worse and worse. My body was emaciated, hands and feet clammy and cold, stomach weak with great palpitation of the heart. I would suffer with nausea all night. I began taking your 'Favorite Prescription' and I began to improve right away. I have taken three bottles and now I am very healthy and am very happy and thankful to you."

Keep your head up and your bowels open. The "Golden Medical Discovery" will put steel in your backbone, and Dr. Pierce's Pleasant Pellets will cure constipation.

Butterflies Sit For Hours Sucking More Moisture Than Needed.

By means of a large number of observations Mr. J. W. Tutt is able to confirm what has been stated by other observers that certain butterflies and moths are very much addicted to drink. In a paper published in the "Proceedings" of the South London Entomological and Natural History Society Mr. Tutt says there can be no doubt that butterflies drink more than is required by their tissues under any possible conditions. He has known Polyommatus damon sit for more than an hour motionless except for the slight movement of sucking up and discharging the moisture almost continuously.

What this internal bath may really mean cannot be surmised. Another important factor as to this drinking habit is a strange one, the "thirsty soul," as far as his observation goes, being almost entirely males. Possibly if exact observations could be made it might be found that females in small numbers also visit puddles, pools and streams for drinking purposes, but as far as Mr. Tutt has been able to discover it is the males alone who indulge in these copious libations, while the females are away laying eggs. Moths and butterflies of both sexes visit sugar, overripe fruit and similar dainties, but they do so for food. The males alone seem to be attracted by pure water, and Mr. Tutt suggests that, their extra activity having originally given them greater need in this direction, a habit which was at first a necessity has become so pleasurable that excessive drinking has literally become a vice.

The Poor Mother-in-Law.

Mother-in-law stories are a drug on the market, but this one seems to be a little less druggy than usual.

A man and his wife went to Europe, and the man's mother-in-law went along. Up to this point there is no novelty in the story.

On the voyage the mother-in-law fell ill and died. Of course, she had to be buried at sea, and so the usual canvas sack was made, but instead of an iron weight to sink the body they used a bag of coal.

In commenting on the arrangements afterward the bereaved son-in-law, who stuttered badly, said:

"I—I always knew where m-m-mother-in-law was g-going, but I-b-b-blame me if I s-s-supposed she'd have t-to carry her own f-f-fuel!"—Cleveland Plain Dealer.

Children as Grammarians.

Two little tots of 4 and 5 years respectively, living out of town, were anxiously awaiting the arrival of a favorite uncle from whom they were expecting a visit. The train came in, but no guest appeared, to the bitter disappointment of the little ones. They ran to their mother for consolation, the younger one saying:

"Mamma, don't you think Uncle Ned oughter come?"

"You mustn't say oughter; say shooder," put in the 5-year-old, with all the dignity that such a correction would imply.—New York Tribune.

An English Joke.

Mother—Why don't you play with that American boy?

Boy—He tells stories.

Mother—He does?

Boy—Yes. He came from New York, and he says he never saw an Indian or a buffalo.—London Sun.

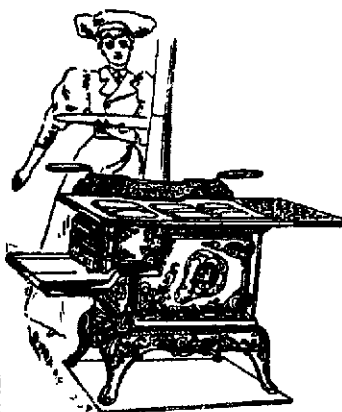

An Old English Firm.

For more than 800 years a drapery business has been carried on in the same building at Sheffield, under the title of the Sign of the Crown, and since 1780 the business has been conducted by one family.

In fasting feasts the sect of Jains, in India, is far ahead of all rivals. Fasts of from 30 to 40 days are not uncommon.

Fifty years ago Austria had seven cities with more than 20,000 inhabitants. Today there are 39.

E. Katz, Agent.

THE PRESIDENT'S INVESTIGATING
COMMITTEE.

Eastern papers express much doubt
as to the impartiality of several of the
men appointed by the President to in-
vestigate the War Department scan-
dals. The Philadelphia Ledger, an ad-
ministration paper, is of the opinion
that "we are liable to witness an in-
vestigation strongly suggestive of the
proceeding of the remarkable tribunals
of the opera bouffe."

This opinion is based on the fact
that three members of the Committee
are virtually committed in advance to
a verdict in favor of Secretary Alger.
One of them, Colonel Saxton, publicly
declared that most of the charges
against Secretary Alger are not pure
and simple. General Dodge, another
member of the committee, recently
wrote a letter to Secretary Alger com-
mending his work and thanking him
for favors received. Ex-Governor
Woodbury, a third member, had a son
recently appointed a Major in the En-
gineer Corps, and he is dependent
upon Secretary Alger for continued
favors.

Here are three members of the Com-
mission, who would not be permitted
to set on a jury to try a case in an im-
partial manner, yet they have been ap-
pointed by the President to investigate
charges of incompetency and misman-
agement in the War Department,
which resulted in the death or disabili-
ty of thousands of the brave men, who
volunteered to fight for their country
in the war with Spain.

SENATOR QUAY IN TROUBLE.

United States Senator Quay of Penn-
sylvania has been held to answer to a
charge of conspiring with others to
convert public moneys to their own
use. The testimony against him was
in the shape of letters and telegrams to
Cashier Hopkins of the People's Bank,
in which about \$600,000 of the State
funds were deposited. The District
Attorney produced evidence to show
that Quay had the use of \$200,000 of
these funds, because he had sufficient
influence with the State Treasurer to
induce him to deposit about \$600,000
of the public funds in the bank.

The People's Bank went into the
hands of a receiver who found the in-
criminating letters and telegrams
among the papers of the Cashier of the
bank, who committed suicide, when
the bank closed its doors.

Senator Quay has been accused of
being implicated in several really trans-
actions. He is said to be a member of
a gang of Pennsylvania politicians who
understand addition, division and sil-
ence and have been plundering the
State for years.

GERMANY PROTESTING.

News comes from Berlin that the
Emperor of Germany is resolved under
no circumstances to permit the United
States to retain the Philippine Islands.
He is said to be of the opinion that
were he to give way in this matter not
only German interests, political as
well as commercial, would suffer in the
far East, but that German prestige
would suffer a lasting blow in the eyes
of Spain and other European powers.

It is reported from Washington that
the authorities anticipate trouble of
the gravest character with Germany
in connection with the Philippines and
that Secretary Long telegraphed or-
ders countermanding the sailing of the
Oregon and the Iowa for Manila until
further instructions.

These reports may be exaggerated, as
it is not probable that Germany would
engage in a war with the United States
to help Spain retain a foothold in the
Philippines, especially as the natives
of those islands are in open revolt
against Spanish supremacy and Spain
seems unable to cope with Aguinaldo.

The United States Mint at San Fran-
cisco and the Canadian officials at Ot-
tawa, now agree in placing the yield of
gold in Alaska for 1898 at \$5,000,000.
A year ago the gold syndicate esti-
mated that the Alaska gold product
for 1898 would exceed \$50,000,000. This
was done to discredit the use of silver
and silence the demand for free coin-
age on the ground that the gold pro-
duct would be large enough to enable
the civilized world to adopt and main-
tain the single gold standard.

The platform of the Silver Party
was set up by Nevada printers and
published in the Journal the morning
after the convention. Subsequently at
the request of papers which were short
of type, it was stereotyped. The papers
which are trying to make political cap-
ital, out of the platform business, use
imported plate matter in every issue.

A UNITED STATES MARSHAL arrested
an Indian at Leech Lake, Minnesota.
The Indians rescued the prisoner and
the Marshal called upon the United
States troops for assistance. A fight
between the troops and Indians re-
sulted in killing several on both sides.
The first reports of the trouble are
said to be greatly exaggerated.

GEORGIA has elected a Democratic
Governor by about 70,000 majority
over the Populists. The Republicans
had no ticket in the field.

The Oregon Legislature is dead-
locked on the Senatorship and it is
possible that a Silver Republican may
be elected.

For Constable.
In another column will be found the
announcement of Ward McNeilly, reg-
ular Republican nominee for Con-
stable of Reno Township. Mr. Mc-
Neilly is so well known in Reno, that
to introduce him to the taxpayers
would be unnecessary. For two years
last past he has served in the office,
which he again asks at the hands of the
voters. He has made a faithful and
efficient officer and a glance at the re-
cord will show that under his incum-
bency, crime within the confines of the
city limits has been reduced to a mini-
mum. The tramp element which by
reason of our situation on the main
line, has always been a source of great
annoyance and expense, has under Mr.
McNeilly's regime cost comparatively
little and hobo are always reminded
to move on immediately upon their ar-
rival. In matters pertaining to the
peace and quiet of the town he is
equally as attentive and alert and
there is seldom cause for complaint on
this score. If re-elected, Mr. McNeilly
may be depended upon to act in his
official capacity as he has in the past,
having in view the best interests of the
taxpayers and the town in general.

Notice.
Elder T. W. Chatherton of Independ-
ence, Mo., representing the Reorganized
Church of Jesus Christ of Latter Day
Saints, will preach at the old Congrega-
tional Church in Reno Sunday, Oct.
9, 1898, at 11 A. M. and 7 P. M. All are
cordially invited. The Heavens have
burst "And I saw another angel
flying in the midst of heaven with the
everlasting gospel to preach to men on
earth."—Rev. 14-6.
"And Jesus will come to take ven-
geance on them who will not obey the
gospel."—Thess. 1-8.

Delayed Trains.
Yesterday morning's east-bound pas-
senger was four hours late in arriving
here, the delay being occasioned by a
freight train wreck at Cape Horn mills.
The west-bound was also a couple of
hours late from delay on the Union
Pacific. Both east and west-bound
trains were late last night, the train
from the East being delayed by eastern
connection and that from the West by
the wreck at Cape Horn, which had not
been entirely cleared.

Interest Rates Reduced.
The Bullion and Exchange Bank of
Carson and the two Reno banks will
reduce the rate of interest on time
certificates of deposit from 4 to 3 per
cent per annum, commencing October
1st, 1898. The banks find this action
necessary, as they report a large in-
crease in deposits and less demand for
money. s29w1

CONSTABLE,
Of Reno Township.

NEVADA'S EXHIBIT.
It Compares Favorably With Those of
Other States.
W. W. Booher of the Elko Independ-
ent, who attended the Sovereign Grand
Lodge of I. O. O. F., visited the Omaha
Exposition, and says:
"The mining exhibit compares favor-
ably with the exhibits from other
States and attracts as much attention
as any of them. The agricultural ex-
hibit, though not as good as it might
be, gives a fair idea of the agricultural
resources of Nevada. While it does
not compare with the exhibits from
Missouri, Texas, Iowa and other States
in quantity and variety there is noth-
ing about it to bring the blush of
shame to any citizen of the State who
may be at the Exposition. On the con-
trary it receives a good deal of favor-
able comment from visitors from other
States."

Mr. Booher says Colonel Maxson
certainly deserves credit for the effort
he has made in exhibiting the resources
of the State at Omaha. He has done
all the work and paid all the expense
of the exhibit and does not deserve un-
favorable criticism. If the exhibit does
not come up to the esthetic tastes of
some of our citizens the fault does not
rest with him, but with those who have
failed to furnish the necessary prod-
ucts to make it what it should be.

Fine Peaches.
General Hagerman is exhibiting
some peaches which he picked off the
trees at John Newmarker's ranch, a
mile below town, yesterday. They av-
erage about 12 inches in circumference
and are as fine peaches as are produced
anywhere.

Henry Biter's Elite is a central resort and there is always a crowd there. If you are looking for anyone you may be sure of finding him there.

Take your jewelry, watches and clocks to Doane, the jeweler, if they require repairing. Give him a call and you will never go any other place.

H. J. Thyes has just received a fine set of heaters, turrens and other conveniences with which to serve his hot lunches. From now on a splendid hot lunch will be set at noon each day.

Dr. Hamilton, specialist, (24 years a practical physician and surgeon,) cures rupture radically and destroys piles painlessly. Office over Brooklyn's Store, Virginia St., Reno, Nevada.

Block and Clausen's lunch to-day will be extra fine and a customer can be served without delay if in a hurry. The best of liquid refreshments can also be found at the Washoe Lunch Counter.

Governor Sadler arrived from the eastern part of the State last night, he having visited Dr. Lamar and Pioche. He reports that the Silver ticket will carry that part of the State by a big majority.

Dave Ryan, Silver Party candidate for State Treasurer and Eugene Howell, candidate for Secretary of State were arrivals on the V. & T. last evening and left for the eastern part of the State on a campaigning tour.

The Monarch has now arranged to furnish Upson's fine chicken tamales every evening. A steaming hot tamale and a mug of Anheuser beer can be had for 25 cents. Hot Winter drinks will also be made a specialty.

Free! Free! Just think you have the satisfaction of knowing the exact condition of your eyes without costing you a cent by going to Doane, the graduate optician from Philadelphia. Located permanently at the Reno Drug Company's store.

The Argonaut says word has been received at Elko that Lieutenant Chas. Henderson of Troop M lies at the point of death at Jacksonville. He is suffering from typhoid fever, which has proven far more deadly in the South than yellow fever. How many of these young men must perish before the lust for conquest of this un-American administration is abated?

H. H. Hamlin, the optician, is here with the finest line of goods ever handled. Anyone he has furnished glasses to within the past year can have them exchanged without cost if they are not properly fitted. Mr. Hamlin may be consulted at the Arcade Hotel. By patronizing him you have the advantage of being in a position to have your glasses exchanged without cost.

THE FIRST GUN.

A Rousing Meeting at the Opera House.

STEWART AND NEWLANDS

Enthusiastically Received by a Large Audience.

(Carson Appeal.)

Main street was a blaze of fire last night, it being the first meeting of the campaign in Carson.

A large audience filled the Opera House to hear Wm. M. Stewart and Francis G. Newlands discuss the issues of the campaign.

Hon. C. E. Mack, as chairman, called the meeting to order with a brief talk. The following vice presidents occupied seats on the stage:

Judge Belknap, L. O. Henderson, P. H. Petersen, Eugene Howell, W. R. Davis, Sam Longabaugh, D. Cline, Andy Todd, Will U. Mackey, W. D. Cottrell, William Westerfield, Andrew Robert, Matt Schatzlein, R. Crow, John Meyers, James Rayercraft, Otto Schultz, Chas. Slingerland, George W. Cowing, Dr. Hennessy and Sam Davis.

The Comstock Glee Club sang a campaign song, which received a tumultuous encore.

Hon. Francis G. Newlands was then introduced and gave the audience a clear and succinct account of the bimetallic movement from its inception, which was listened to with close attention by the audience and frequently applauded. A fuller synopsis of his speech will appear in to-morrow's issue.

STEWART'S SPEECH.

In 1892 the people of Nevada became satisfied that both the old parties were in favor of the maintenance of the single gold standard and that their professions to the contrary were false. In the early summer of that year a convention of citizens, irrespective of party met at Reno and formed the Silver party. Mr. Cassidy was one of the leading spirits in that convention and made a most powerful and thrilling speech which cost him his life. He died in a few hours after that great effort. Afterwards, primaries were held and a nominating convention was assembled at Winnemucca which put forth a strong platform in which the action of the two old parties on the money question was reviewed and condemned. James B. Weaver was the only Presidential candidate committed to the cause of silver. He was endorsed by the Silver party for that reason and that reason alone. The Congressional and Senatorial elections were then pending. My colleague, Mr. Newlands, were elected by an overwhelming majority, and the Presidential electors in favor of James B. Weaver, the silver candidate, carried every county. The Legislature was unanimous for silver and re-elected me to the Senate without opposition. The independent Silver party of Nevada became a power in the land. The example of making silver the important issue had an important influence throughout the whole country. The struggle in the two old parties to retain the silver vote became active in every State. The Democratic party succeeded in the West and South in sending silver delegates to the Chicago convention, and controlled that convention by a two-thirds vote. The gold men of the East sloughed off and either voted for McKinley or for Palmer and Buckner. The true men of the West and South stood firm and issued a platform making silver the paramount issue, and the free coinage at the ratio of 16 to 1, by the United States, acting independently of all other countries the slogan of the contest. The nomination of Wm. J. Bryan seems almost providential. He was and is the man for the occasion. The true silver men of the Populist and of the Republican party joined the silver men in the Democratic party and swelled the vote of Wm. J. Bryan to 6,500,000 which far surpassed the vote ever given to any Presidential candidate previous to that time. In every State west of the Alleghenies and south of the Potomac, in which there has been a convention held since 1896, of either Democratic, Silver, Republican or Populist, an unqualified declaration has been made in favor of the principles of the Chicago platform. In nearly all of these States complete fusion of the silver forces has been accomplished to co-operate together for the restoration of silver. Such general activity never before existed, and the prospect of victory never before seemed so certain as at present. The issue is now clearly made and cannot be changed in 1900.

Nevada was the first to discover that both parties were insecure and that neither intended to keep faith with the people.

Previous to the Chicago Convention which nominated Bryan, the Republican party did not throw off the mask, but promised the people free coinage through an international agreement, and went through the sham of spending \$100,000 of the people's money in sending the Wolcott Commission to Europe to beg permission to legislate for ourselves on the money question. All that is now exploded. The promise thus made secured hundreds of thou-

sands of votes for the Republican candidate in 1896, but that pretense can never be used again. The Republican party has repudiated international bimetalism as well as free coinage, and is now squarely for the gold standard.

The Republican party of Nevada pretend that the National Republican party dominated by Hanna is for bimetalism. When they wrote the following plank in their platform, they must have had in view a deception of the people. Here is what the Republicans say:

"We are firmly convinced that the final adjustment of the money question must come by and through the Republican party. The party is pledged to bimetalism. We therefore declare that the settlement of this important question may be safely left to the Republican party of the nation."

Now, what did the great Republican party of the nation declare in convention at St. Louis in 1896? Listen:

"We are opposed to the free coinage of silver except by international agreement with the leading commercial nations of the world which we pledge ourselves to promote, and until such an agreement can be obtained, the existing gold standard must be preserved."

Is there any hope for free coinage in that declaration? If we wait until such an agreement is obtained when do the people of Nevada imagine the Comstock mines and all other mines will be again operated?

This same Republican party of Nevada in 1896 realized that without free coinage prosperity cannot be restored. It then said:

"In our judgment the restoration of the true bimetallic standard of value as it existed previous to 1873, namely, at the ratio of 16 to 1, is an absolute and indispensable requirement before the financial system of our Government will afford the people a volume of stable circulating money sufficient to place the business of the country on a permanently prosperous basis."

There is abundant evidence from high Republican authorities that the National Republican party is for the gold standard pure and simple, and that any vote cast for the nominees of that party is a vote to tighten the hold of the money power on the throats of the masses. Read the following evidence:

On the 24th of July, 1897, President McKinley sent to Congress a message recommending the appointment of a commission to carry into effect the plan of the Indianapolis gold commission. He said:

"I commend this report to the consideration of Congress," thereby endorsing said report.

The report of the Indianapolis gold commission is as follows:

"It has become absolutely necessary that a consistent, straightforward, and deliberately planned monetary system shall be inaugurated, the fundamental basis of which should be, First: That the present gold standard should be maintained."

By commending the Indianapolis plan the President repudiated any and all international agreements and planted himself squarely on the gold standard.

Secretary Gage immediately thereafter made the following declaration before the Banking and Currency Committee of the House in the presence of our Congressman, Mr. Newlands:

"The objects I have in mind in the series of provisions offered by me are: First, to commit the country more thoroughly to the gold standard, remove so far as possible doubts and fears on that point, and thus strengthen the credit of the United States at home and abroad."

The Republican League is a pretty good authority on the principles of the National Republican party. That League, at its annual meeting last July at Omaha, declared in their resolutions that—

"We are uncompromisingly in favor of the maintenance of the single gold standard and are unqualifiedly opposed to free and unlimited coinage of silver."

Mr. Hanna, who speaks for the Administration and who is the highest authority in the Republican party, reprimanded the Republicans of Utah and, through them, all other Republicans, for even contemplating the adoption of a free coinage platform. In his letter to U. S. Marshal Mills, he said:

"I have been informed that it has been suggested that the Republican party of Utah at the next State convention indorse in its platform the free coinage of silver. As Chairman of the National Committee, charged with the duties of that position, I protest against the Republicans of any State taking such action. It would be clearly in opposition to the principles of the party as demanded in the platform at

ROYAL BAKING POWDER

Royal makes the food pure, wholesome and delicious.

ROYAL BAKING POWDER CO., NEW YORK.

THE NATIONAL CONVENTION AT ST. LOUIS.

Notwithstanding all this evidence and contrary to the commands of Mr. Hanna, the Republicans of this State say the Great Republican party of the Nation is for bimetalism and rely on that party to obtain it. Can anything be more absurd than that? I hope the declaration was made in good faith and in ignorance of the principles of the Republican party of Hanna. I do not want to believe that my fellow citizens of the Republican party knowingly intended to humbug the people.

The Senator then spoke of the benefits secured for the State in Congress, notably the State war claims of \$404,000, which he said were practically sure of being paid at the coming session, also the Pinta War Claims. He dwelt upon the importance of the State University, and the advantage of the endowment of \$40,000 annually from the Government. The independence of the Silver Party representatives in Congress has enabled them to work at all times for the good of the State without being trammelled by party caucuses. He alluded to the tariff on wool, hides, lead and borax which will develop Nevada's industries, and also on the reduction of the tariff on cyanide which makes it possible to work thousands and thousands of tons of low grade gold ores. He declared that the Silver Party is absolutely necessary to compel the Democratic party to hold fast to its declaration for free coinage.

The Artesian Water.

Prof. N. E. Wilson, Station Chemist at the University, has made an analysis of a sample of water from the artesian well, bored at John Sparks' ranch by the Pettigrew Bros.

According to the analysis, one gallon of the water would contain the following in grains: Silica, 6.994; iron and alumina, 2.338; sodium chloride, (common salt), 1.186; sodium sulphate (glauber salts), 21.581; calcium sulphate gypsum, 2.268; magnesium sulphate, (Epsom salts), 1.337.

The Pettigrew Brothers are still here and now would be an excellent opportunity to try an experimental well within the town limits. If artesian water could be found here its discovery would increase the value of town property from twenty-five to fifty per cent. A few hundred dollars would cover the cost and the park opposite the Courthouse would be an excellent location to try the experiment. This is a benefit worth the consideration of the City Council and it might materially change the aspect of the water question and be a saving to the community.

An Enterprising Druggist.

There are few men more wide awake and enterprising than S. J. Hodeskinson who spares no pains to secure the best of everything in his line for his money customers. He now has the valuable agency for Dr. King's New Discovery for consumption, coughs and colds. This is the wonderful remedy that is producing such a furor all over the country by its many startling cures. It absolutely cures Asthma, Bronchitis, Hoarseness and all affection of the Throat, Chest and Lungs. Call at above drug store and get a trial bottle free or a regular size for 50 cent and \$1.00. Guaranteed to cure or price refunded.

Merchant Tailor.

A. W. Fox, merchant tailor, has a new ad in another column. Mr. Fox has purchased the Boston Tailoring Company's business here and is now prepared to furnish the finest of materials for men's clothing and make it up in the very latest style. His prices will be in keeping with the times and in every way possible, efforts will be made to give satisfaction to all patrons. He has none but the best of workmen and being an experienced cutter and fitter himself, he never permits a garment to leave his shop that will not bear the closest scrutiny as regards the workmanship upon it.

Give him a call and place an order with him for a Winter suit, and you will receive full value for your money.

How To Look Good.

Good looks are really more than skin deep, depending entirely on a healthy condition of all the vital organs. If the liver is inactive, you have a bilious look; if your stomach is disordered, you have a dyspeptic look; if your kidneys are affected, you have a pinched look. Secure good health, and you will surely have good looks. "Electric Bitters" is a good Alternative and tonic. Acts directly on the stomach, liver and kidneys, purifies the blood, cures pimples, blotches and boils and gives a good complexion. Every bottle guaranteed. Sold at S. J. Hodeskinson's Drug Store. 50 cents per bottle.

Under Bonds to Appear.

Wayne Beck, the lad who was shot by Arthur Cross, another boy, on Thursday afternoon, is getting along very well, but the sight of the injured eye is destroyed. He will probably be taken below in order to have the eye removed, but this is not settled upon as yet.

Arthur Cross appeared before Judge Linn yesterday afternoon and was placed under a bond of \$500 to appear before the Grand Jury, with H. H. Beck and J. J. Quinn as sureties and the boy was released.

Bucklen's Arnica Salve.

The best salve in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns, and all Skin Eruptions, and positively cures Piles, or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by, S. J. HODEKINSON.

Thos. Wren left for Virginia City yesterday morning.

PLATFORM.

The Silver Party of Nevada pledges its un-

wavering devotion to the principles of govern-

ment laid down by Jefferson and Lincoln:

That the highest duty of government is to re-

gulate its laws that the spirit of equality

shall follow men through life giving each ample

opportunity to work out to the fullest

measure his possibilities unrestricted by law,

and unaffected by the conquest of his domin-

ion of opportunity by other men. We endorse

as expressing the demands of the American

people in consonance with the foregoing, the

platform of the National Silver party formu-

lated at St. Louis July 3, 1896, and the finan-

cial plank of the National Democratic party

adopted at Chicago July 7, 1896.

The history of the movement for the restora-

tion of bimetallism is the glorious story of Ne-

vada's leadership. The educational work so

patriotically undertaken six years ago has

spread throughout the entire country. On the

issue that the value of money is quantitative

and not qualitative, the intellectual and polit-

ical forces of nations are now battling. Mind-

ful of her glorious record Nevada will take her

place again in the conflict not as the ally of

gold but on the side of those who struggle in

the fields of adversity.

We reaffirm our devotion to the free and un-

limited coinage of silver at the ratio of 16 to 1

by the independent action of the United States,

and we are hereby opposed to the Repub-

lican policy of increasing the bonded debt, of

transferring the sovereign power of the gov-

ernment to issue money to banking institu-

tions of contracting the circulating medium

to the single gold standard and of increasing

taxation while contraction is diminishing the

means of payment.

Our faith in the loyalty ability and wise lead-

ership of William J. Bryan is unshaken, and

we predict for the silver forces of the United

States with 16 to 1 as their motto, and

William J. Bryan as their standard bearer, an

overwhelming victory in 1900.

We invite the co-operation of the Republic-

an party of Nevada who declared in their plat-

form of May 30, 1896, as follows:

"Resolved: That the Republican party of

this state is in favor of free and unlimited coin-

age of gold and silver; that it holds to the

principle as a test of party faith and a test

of party allegiance; that it will permit of no

abandonment or modification of this doctrine;

that let whosoever prove recreant to the prin-

ciple of bimetallism it will remain steadfast

thereto."

And who on May 9, 1896, at Virginia City, de-

clared as follows:

"We again reiterate our steadfast devotion

to the cause of the free and unlimited coinage

of silver, and declare that in our judgment

the restoration of the true bimetallic standard

of value as it existed previous to 1876, namely,

the ratio of 16 to 1, is an absolute and indis-

pensable requirement before the financial sys-

tem of our government will afford the people a

value of stable circulating money sufficient to

place the business of the country on a perma-

nently prosperous basis."

We endorse the action of Nevada's repre-

sentatives with respect to tariff and financial

legislation, commending their patriotic support

of the administration in time of war, whilst

using all efforts to prevent the issuance of

bonds.

We say to the Republican party of Nevada:

Do not the beneficent results of the tariff sched-

ules of the Dingley bill which affect Nevada,

and which Nevada's Silver representatives se-

cured, namely: wool, cattle hides, cyanide, and

borax, fall upon you as the rain falls upon the

just and the unjust? And if so, in what man-

ner could Republican Representatives have

done more?

We say to the Democratic party of Nevada:

Has not the action of Nevada's Representatives

on financial legislation been in keeping with

the Democratic platform of 1896, and, in this

respect, could Democratic Representatives

have done more?

We express our profound appreciation of the

tireless efforts of Nevada's grand old man,

Wm. M. Stewart, not only as the leader of the

silver cause in America, but for his great de-

votion to the local interests of the State, and

emphatically by the fact that he has been the

author of many of the important measures

affecting Nevada's interests which have been

enacted by Congress: namely, the mining laws

of the United States, the Carson Mine, the

Stewart Institute, the establishment of the

Agricultural Experiment Station, which en-

ables the State University to receive \$40,000 a

year Government aid, and the securing of a

military instructor at the State University.

We further commend his efforts, notably

soon to be crowned with success, to secure

payment to the State and citizens of Nevada

of nearly half a million dollars for moneys ex-

pended in the suppression of the war of the

rebellion, and Indian outbreaks. We endorse

his proposal to secure legislation making Lake

Tahoe and vicinity a national park, which

Government purchasing on an equitable basis the

rights of parties whose interests are affected,

as not only preserving from destruction one of

Nature's grandest works, but giving the Na-

tional Government control for irrigation pur-

poses of a great lake reserve, which will

guarantee the farmers along the Truckee river

more water for irrigation, and enable a vast

additional area of arid land to be brought un-

der cultivation.

We earnestly recommend the re-election of

Wm. M. Stewart to the Senate of the United

States, and pledge the Silver party of Nevada

and the nominees of this convention to his sup-

port for that office.

To our other Senator, John P. Jones, we ex-

press the greeting of a people who rejoice that

they have such a great public servant who has

honored the commonwealth, who has de-

lighted to honor him. His prominent knowl-

edge of all financial questions has been used by

him for the benefit of the whole world, and his

speeches in the United States Senate upon the

silver question have become the text book of

those statesmen who are devoted to the inter-

ests of the whole people.

We take pride in the career of Francis G.

Newlands in Congress, notably in the fact that

he has risen in six years to a place among the

leaders of the House, and that his influence in

public affairs is becoming more and more im-

portant, as shown by his great part in the an-

nexation of the Hawaiian Islands a consum-

mation anticipated and desired by the Ameri-

can people for more than fifty years. We do

not think Nevada cannot afford to lose him as

her Representative in the hall of Congress.

Regarding the importance of State devel-

opment upon agricultural lines, we commend

the efforts of our Representative in Congress

to secure for the State of Nevada legislation

looking to the reclamation of arid lands, and

the storage of water in reservoirs in said

lands, and we are in favor of holding the same

until the American people shall have time to

consider and make such disposition of the new

acquisitions as sound policy and the interests

of the whole country may require.

We favor the construction of the Nicaragua

canal by the Government of the United States

of America as a political and commercial nec-

essity.

At the last session of Congress a law having

been passed providing for the settlement of

the indebtedness of the Central Pacific rail-

road to the Government of the United States

the terms of which require the payment of the

entire debt principal and interest within ten

years, with interest at the rate of 3 per cent

per annum, and on failure to make such settle-
